About the Event

Nursing Practice 2026 offers a tremendous opportunity to meet and make new contacts in the field of Nursing and Healthcare, by providing collaboration spaces and breakout rooms with tea and lunch for participants between sessions with invaluable networking time for you. It allows participants and delegates to have issues addressed in Healthcare and Nursing, by recognized global experts who are up to date with the latest developments in the field and provide information on Healthcare and Nursing. Nursing Practice 2026 is an International conference that will feature world-renowned keynote speakers, plenary speeches, a young research forum, poster presentations, workshops, and career guidance sessions.

Nursing Practice 2026 creates an international forum for Doctors, Professors, Academics, Researchers, Scientists, Health professionals, and medical professionals from all over the world to discuss the latest issues.

The Nursing Practice 2026 conference would likely focus on advancements, trends, and challenges in nursing and healthcare practices. These conferences typically include keynote presentations, panel discussions, workshops, and opportunities for networking and collaboration. The Conference will have an area for firms and/or establishments to gift their services, products, innovations, and analysis results. If your company/organization is inquisitive about taking part in this event, then come and be part of this.

Hope you will take this opportunity to join us and visit the city of Singapore.

About Singapore

Singapore is a city-state and island country in Southeast Asia, located at the tip of the Malay Peninsula. It is bordered by the Straits of Malacca and the South China Sea, and separated from Indonesia by the Singapore Strait and Malaysia by the Straits of Johor.

Singapore is known for being one of the greenest cities in the world. It also has one of the longest life expectancies, fastest internet connection speeds, and lowest infant mortality rates in the world. Ideally positioned in South-east Asia, where the rest of the region is just a hop, skip and jump away, Singapore is a thriving metropolis offering a world-class infrastructure, a fully integrated island-wide transport network, dynamic business environment, vibrant living spaces and a rich culture largely influenced by the four major communities in Singapore with each offering different perspectives of life in Singapore in terms of culture, religion, food, language and history.

One of the reasons that Singapore proves to be attractive as a home is the ease of living, particularly in terms of residence, transportation and governance system. Over the years, Singapore has made significant strides in many areas and has attracted an encouraging number of international accolades which recognize the city as vibrant and world-class.

Therefore, whether it is the arts and cultural exchanges, the creation of cutting-edge innovation to enrich the lives of the communities at home or abroad, or the coming together of excellent minds to spark new business opportunities locally and internationally, Singapore is simply, the place where worlds meet.

Interesting Facts about Singapore:

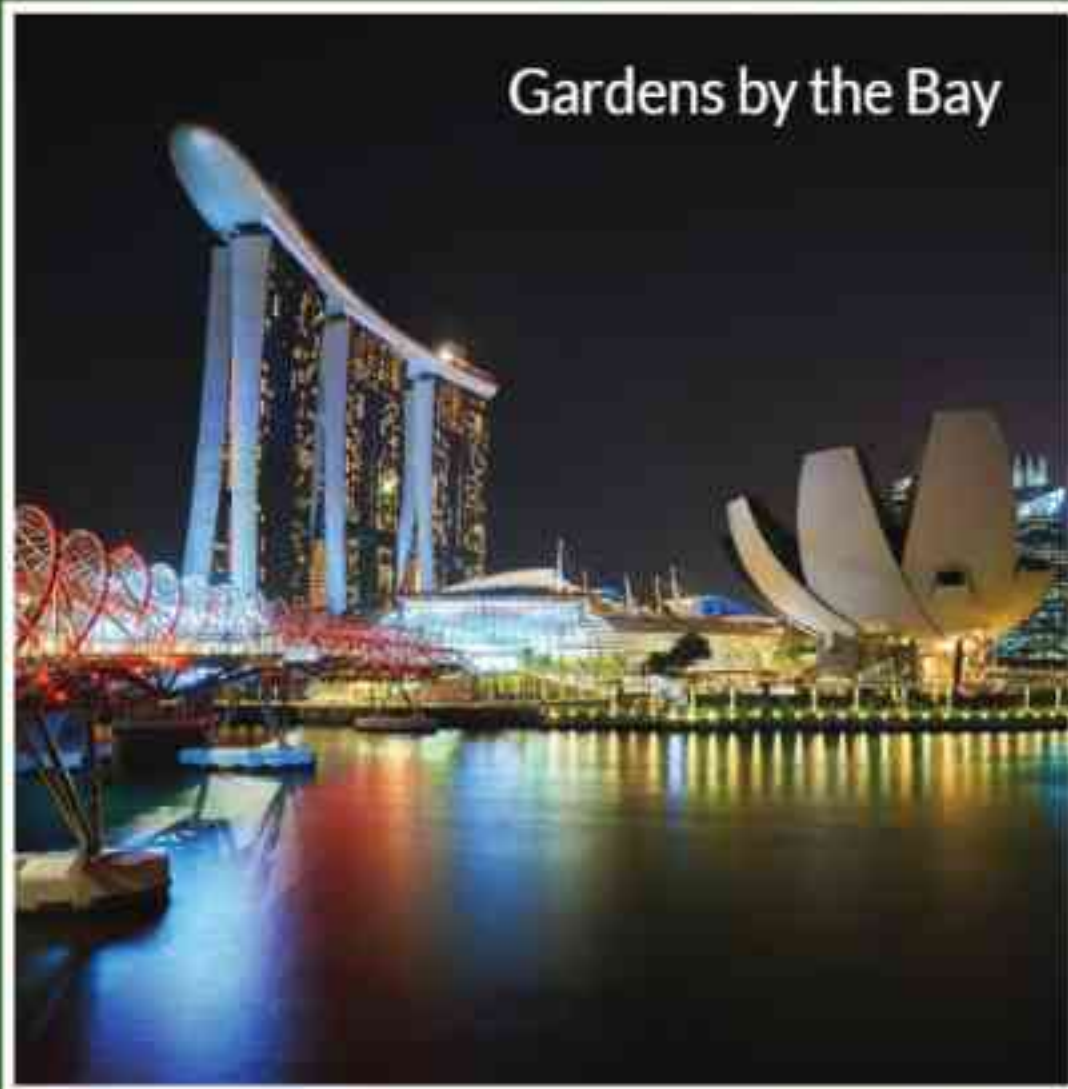

Singapore is one of only three remaining city-states in the world, alongside Monaco and Vatican City. Despite its small size, it is a global hub for finance, trade, and tourism. Singapore is known as the "Garden City" due to its lush greenery and commitment to urban planning. The city has over 50% green cover, with iconic attractions like Gardens by the Bay and the Singapore Botanic Gardens (a UNESCO World Heritage Site).

Singapore is one of the safest countries in the world, thanks to its strict laws and low crime rate. However, some laws are famously strict, like the bans on chewing gum sales and littering. Singapore is home to a diverse population, with four official languages: English, Mandarin, Malay, and Tamil. Its cultural mix is celebrated in festivals like Chinese New Year, Hari Raya Puasa, Deepavali, and Christmas. The Merlion, a mythical creature with the head of a lion and the body of a fish, is Singapore's national symbol. It represents Singapore's origins as a fishing village and its original name, Singapura, which means "Lion City." The Supertrees at Gardens by the Bay are not just visually stunning; they also serve as vertical gardens, collect rainwater, and generate solar power. At night, they light up in a mesmerizing show. Singapore is one of the few countries in the world that has achieved a "no stray" status, thanks to strict animal welfare policies and community initiatives.
